

16TH ANNUAL PEAK CYBER SYMPOSIUM

SPEAKER BIO

Merlin Namuth
Chief Information Security Officer (CISO)
City and County of Denver

Merlin Namuth is the Chief Information Security Officer at the City and County of Denver supporting over 50 agencies and departments. His comprehensive experience spanning several industries includes leading several different security programs, creating strategy and building security programs from the ground up, advancing existing security programs, mergers and acquisitions, managing incident response teams, compliance, architecture, and engineering complex security solutions. Namuth has served as an advisor to security startup companies. He has presented at numerous conferences, including RSA Conference both domestically and internationally, been interviewed on renowned security podcasts, and frequently writes blogs and articles.
