

Biography

Colonel (Ret) Joseph J. Wingo

Colonel (Ret) Joe Wingo is the Director of DoD Strategy for Armis and additionally acts as the Chief Technical Officer for Armis's DoD products. Armis is a cutting-edge, industry leader in cybersecurity, leveraging the world's largest cybersecurity AI/ML capability to fuse deep Asset Intelligence with evidence-based Threat Intelligence, enabling cyber defenders to out maneuver any adversary.

Previous to Joe's retirement on 1 January 2024, he served as the Director of Operations, Sixteenth Air Force, Air Forces Cyber, and Joint Force Headquarters-Cyber, Joint Base San Antonio-Lackland, Texas. He was responsible for the daily operations of more than 44,000 personnel conducting worldwide operations. Sixteenth Air Force Airmen deliver multi-source intelligence, surveillance and reconnaissance products, applications, capabilities and resources. In addition, they build, extend, operate, secure and defend the Air Force portion of the Department of Defense global network. Furthermore, his Joint Forces Headquarters-Cyber personnel performed operational planning as part of coordinated efforts to support Air Force component and combatant commanders and, upon approval of the President and/or Secretary of Defense, the execution of offensive cyberspace operations.

Colonel Wingo previously served as the Director of Cyber & Spectrum Operations Integration at HQ US Space Force, leading the Service Staff support of Defensive Cyber Operations, Cybersecurity, Electromagnetic Spectrum Operations, and SATCOM management for the United States Space Force..

Colonel Wingo was commissioned through the Officer Training School in January 1999. He commanded the 39th Information Operations Squadron, the 628th Communications Squadron, and the 690th Network Support Squadron Det 2. Additionally, he has served in a broad variety of leadership and instructor assignments.
