

14TH ANNUAL PEAK CYBER SYMPOSIUM

SPEAKER BIO

Edward Tuorinsky
Founder and Managing Principal
DTS

Founder and Managing Principal, Edward Tuorinsky, leads DTS, an IT consulting, government contracting, technical remediation, and cybersecurity solution provider. He brings more than two decades of experience and expertise in cyber, consulting, management, and IT services. Prior to founding the company, Mr. Tuorinsky was a Captain and logistics officer in the U.S. Army, serving at various locations nationally and abroad. Mr. Tuorinsky is a seasoned educator, presenter, and established author, contributing subject matter expertise in the areas of compliance, program management, strategy and operations, human capital management, technology, cybersecurity, digital transformation, and leadership development to many noteworthy publications, including *Federal Times*, *Forbes*, *GovLoop*, *NextGov*, *Small Business Today*, *Washington Technology*, and *Washington Business Journal*. His insights, advice, and perspectives reflect thoughtful management, deep consulting experience, and an evolving industry landscape.

Mr. Tuorinsky is a sought-after speaker for conferences, webinars, and interviews and was recently included in the roundtable discussion with local leaders and *Washington Technology* editors on supply chain security. He spoke on using Zero Trust architecture at the Cyber Security & Cloud Congress; was invited to participate in a panel at the William & Mary National Security Conference on compliance and participated in a panel discussion on CMMC and JSVA compliance, alongside other DTS executives, partners and customers at the 2024 National Small Business Conference.

Mr. Tuorinsky holds a Bachelor of Science from the College of William and Mary.
