16TH ANNUAL PEAK CYBER SYMPOSIUM

SPEAKER BIO

Greg Williams
Assistant Vice Chancellor for Information Technology and
Chief Information Officer
University of Colorado Colorado Springs

Greg Williams is the Chief Information Officer at the University of Colorado Colorado Springs, where he leads enterprise technology and digital transformation strategy with a strong focus on applied AI, automation, and innovation. Greg works at the intersection of higher education, emerging technologies, and organizational transformation, guiding teams as they explore how AI can improve operations, decision-making, and teaching and learning.

Greg has taught various computer science and cybersecurity courses at UCCS and on Coursera for the University of Colorado for the past 10 years. Greg has also been an ISSA chapter member for the past 15 years and tries to help out the security community when time allows. He is finishing his Ph.D in cybersecurity, where his primary research and dissertation focus is shadow IT and the effect it has on security posture and vulnerability management.
