

16TH ANNUAL PEAK CYBER SYMPOSIUM

SPEAKER BIO

Hector Falcon
Director, Watch Center
Space ISAC

Hector Falcon serves as the Director of the Watch Center for Space ISAC, where he leads efforts to enhance cyber threat intelligence sharing, situational awareness, and collaboration across the global space sector. In this role, he works with government, industry, and international partners to identify emerging threats and strengthen the resilience of space-based systems and critical infrastructure.

With a background spanning cybersecurity, intelligence, and risk management, Hector has held leadership positions supporting both public and private sector organizations. His experience includes helping organizations navigate complex cyber threats, operational risk, and evolving security challenges in highly regulated environments.

16TH ANNUAL PEAK CYBER SYMPOSIUM

SEPTEMBER 9 - 10, 2026 | COLORADO SPRINGS, CO
