Tyler Jaeger
Sr. Solution Architect
Ivanti

Tyler Jaeger is a Sr. Solution Architect at Ivanti. Tyler has over a decade of experience demonstrating his expertise in supporting US Federal Government and Fortune 100 accounts with Unified Endpoint Management, Cybersecurity, and Vulnerability Management. His track record of over 10 years reflects his deep involvement in guiding these sectors towards effective solutions, with a focus on security and regulatory compliance.

During his tenure at Ivanti, Tyler Jaeger has become a subject matter expert in Endpoint Management, Risk-Based Vulnerability Management, and GRC. Presently, he directs his efforts towards providing invaluable assistance to critical sectors including the DoD, DoE, and DHS organizations.
